

# WHEN THE PIPERS PLAY

An entertaining combination of live performance and film:

Join singer and broadcaster **Isla St Clair** and film maker **Patrick King** for a “behind-the-scenes” audio visual show based on their award winning film *When the Pipers Play*, a screen history about the bagpipe and its effect on people both in peace and war.

Inspiring songs, stories and powerful images give a unique insight of this ancient instrument. This combination together with funny out takes and audience interaction is ideal for people who enjoy music, history and film making.

A lighthearted presentation, suitable for all ages, that is different, informative and wonderfully entertaining.
